

PrecisionHire Sports, an innovative product of *SPORTSEARCH*, LLC is an applicant tracking system designed specifically for the hiring needs of Employers in the Sports Industry. This proprietary web-based technology is designed to streamline the hiring process, saving an organization time and money, while giving the HR department a powerful, user-friendly tool to target the most qualified individuals.

Complete Online Solution:

- No software to install. Everything you need is online.
- User friendly web-based interface requires minimal training.
- Accept applications and resumes directly from your customized job board.

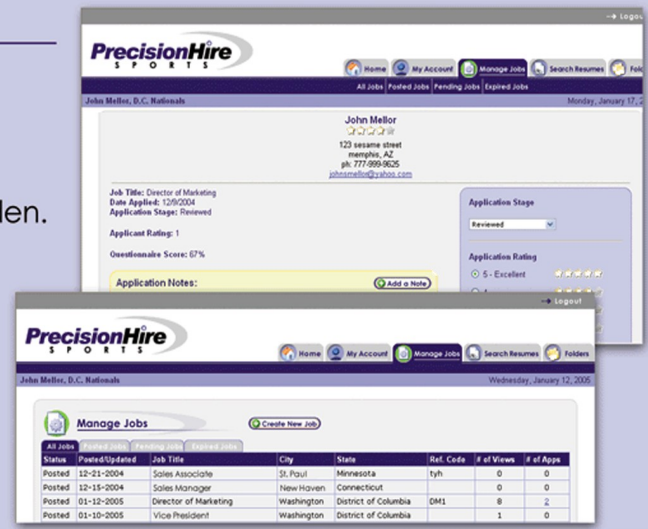

Communicate with Applicants:

- Automatically respond to all applicants to acknowledge receipt of resume.
- Send personalized emails to either individual or select groups of candidates.

Applicant Tracking:

- Applications and resumes are standardized with information that you request and organize into a searchable database.
- Eliminate email and paper resumes to ease administrative burden.
- Ask Pre-screening questions specific to each job posting allowing you to target top candidates more efficiently.
- Save outstanding candidates into customizable folders for future reference.
- Track a candidate through each stage of the hiring process.

Job Stats/Reporting:

- Learn the effectiveness of your job advertising expenditures and where your best candidates are coming from.
- Collect valuable job specific statistics including EEO information.
